

RPCA150N-20L1

DC-3GHZ HIGH POWER CHIP ATTENUATOR

The RPCA150N-20L1 offers excellent performance to 3GHz. This high power chip attenuator handles 150W which makes it ideal for power sampling in Circulators and Isolators. The RPCA150N-20L1 is also RoHS compliant.

Features:

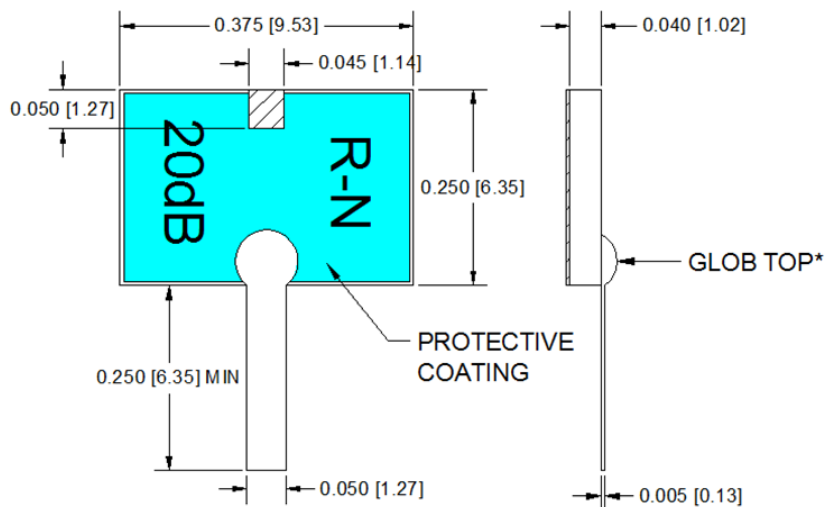

- Low VSWR
- DC-3GHz
- Aluminum Nitride Substrate
- 150 Watts
- RoHS Compliant

Specifications

- Impedance: 50 Ohms
- Frequency: DC – 3 GHz
- Power: 150 Watts
- Attenuation accuracy: 20 ±1dB
- VSWR 1.20:1
- Terminal Finish: Electroplated Tin over Nickel barrier
- Operating Temperature: -55°C to 150°C
